The "alt" attribute provides a text equivalent for the image. If the browser cannot display an image the alt description will be given in its place. Furthermore, some visitors cannot see images as they might be blind in which the alt tag provides a valuable image description. Finally, search engines utilize the alt attribute for image search indexing. (www.w3.org/QA/Tips/altAttribute)

Description Metatag

We have found following description:

"Online Dating at QuackQuack – 100% totally free online dating India site to meet local singles for chat & friendship to find best matches. Best matchmaking & social dating, no comparison to other dating sites!"

Length: 209 characters

Warning: The description is 209 characters long. The optimal description should not exceed 160 characters (http://www.seomoz.org/learn-seo/meta-description).

The description attribute should provide a concise explanation of a Web page's content. Also, the description is often displayed on search engine results and can affect page ranking. (en.wikipedia.org/wiki/Meta_element#The_description_attribute)

- dating site
- dating service
- meet singles
